

NORTH FLORIDA ARCHERS

VOLUNTARY 3D TARGETS FUND:

This year the club lost an unusually high number of 3D targets as the result of an over amorous pig. We feel the destructive pig issue has been resolved. Thanks to the efforts of many of our members, a number of these targets have been repaired, but many were unrepairable, leaving us with a lower than normal inventory.

The board elected to establish a **voluntary** 3D target fund to help replace some of the targets. The targets purchased will replace the worn out and overshot targets on both of the 3D ranges. If you feel you would like to donate to the fund, please check one of the boxes below, print this form and send your check to:
